

Core brief

Wednesday, 07 December 2016

Introduction

This issue of Core Brief congratulates one of our team of radiographers who won a national award and provides details of a new scholarship for Band 6 nurses.

Congratulations to team of radiographers

A team of our radiographers who work in the diagnostics directorate are celebrating after winning a prestigious national award.

The award for the Radiography Team of the Year from the Society and College of Radiographers was presented to the team who provide a radiographer reporting service on musculo skeletal images. [Click here to read the full press release](#)

Vale of Leven Inspiring Care Scholarship is open for applications

This Scholarship has been launched by the Scottish Government Chief Nursing Office and is aimed at Band 6 nurses from across the acute and community sectors, into improving patient care in-line with recommendations made by the Vale of Leven Inquiry. Successful applicants are expected to share their learning with colleagues locally, as well as more widely through at least one nationally organised event.

Detailed information about the Scholarship programme, including eligibility criteria and application documentation, is available on the NMAHP Research Unit website news feed via this link:
