

Core brief

Thursday, 13 July 2017

Introduction

This issue brings you news of our new director of ehealth, come along and meet our director of nursing and the 2030 nursing vision.

Director of eHealth

William Edwards has been appointed to the post of eHealth Director for NHSGGC following our recent recruitment process.

William joined NHSGGC in July 2016 as Head of eHealth Strategy & Programmes and has, since November 2016, been covering the role of the interim eHealth Director.

He is well known across NHS Scotland as he has held eHealth leadership posts at both national and local levels and is well placed to continue leading our eHealth agenda.

He will take up the post with immediate effect and I trust you will continue to support him in this role going forward.

Meet the Board Nurse Director

Dr Margaret McGuire, Board Nurse Director invites you to meet her and hear about ongoing work, opportunities and priorities within NHSGGC and nationally. In addition, these 45 minute sessions will offer staff the opportunity to discuss issues important to them and share and learn from each other.

These informal sessions will help us to work together in order to improve care for our patients and communities.

Margaret will be at the QEUH, Level 9, Seminar Education Room at 1pm on Wednesday 26 July - come along and meet her.

Nursing 2030 vision

Scotland's Chief Nursing Officer has set out her strategy to shape the future of the profession. Professor Fiona McQueen's Nursing 2030 Vision sets out what nursing needs to look like by 2030 – capturing what is currently done well and what needs to be done differently to deal with future demands on public services and issues like the ageing population and workforce.
