## Introduction

This issue brings you information on changes to the Clinical Portal, Mental Health Awareness Week and the Chairman's Awards.

## Clinical Portal is changing...

- A key improvement to the current patient notes on Clinical Portal with new enhanced patient notes functionality. This will also replace the \*Generic Continuation Form\*.
- New clinical forms & pathways to replace eForms
- New forms & pathways tab to provide a more integrated workflow within Clinical Portal

More information is available via our [StaffNet page Clinical Portal](#), where users can also access learning and support material. Keep an eye on Clinical Portal NEWS, StaffNet and Core Brief for further updates.

Our first drop-in information sessions are being held at:

### **Raising awareness of Mental Health needs in later life**

As part of Mental Health Awareness Week (14 - 20 May) here we talk about mental health needs in later life. Our population is ageing – it is estimated that by 2037 in Scotland, the proportion of the population of “pensionable age” will be approximately 23%, with people aged 75 years and over increasing by 86%. It is important to be aware that older people we come into contact with may have mental health needs that could benefit from further assessment and/or intervention - visit: [Important Announcements on StaffNet](#) for more information.

### **Your chance to win this year's unique award**

If you want to get your hands on a special Platinum Chairman's Award, then you need to get your entries in now!

As part of our 70th anniversary celebrations, the Chairman's Awards will this year get a special one-off platinum rebranding. This will be your only chance to win one of these unique awards.
