Introduction

This issue brings you news of our flu campaign – don't infect, protect, and Scottish Government announces nursing and midwifery students bursary to rise.

Don't infect, protect

Have you joined our army of flu heroes yet?

Join your colleagues who are telling flu to 'buzz off' this year and make sure you get your vaccination.

It only takes a few minutes and is the best way to protect yourself against the flu.

We have made it as easy as possible by holding mass clinics at our main sites. We also have peer immunisers across acute and community to help vaccinate as many staff as possible.

For more information and to find out where our mass clinics are being held, visit: www.nhsggc.org.uk/staffflu

Breaking News - Nursing and midwifery students' bursary to rise

All eligible students, who currently receive £6,578, will benefit from an interim increase to £8,100 in 2019/20, rising to £10,000 in 2020/21. This rise of £3,422 a year will help cover accommodation and living expenses during their studies. [Click here to read more.](#)
