

Core brief

Thursday, 17 January 2019

Introduction

This issue brings you the latest information on ePayslips and we're leading the way on asset management.

ePayslips

With the implementation of ePayslips this month staff should now be starting to receive their security envelopes to their home address. This contains vital information for accessing ePayslips including your logon and password details and should be kept safe.

Monthly ePayslip will be in effect for pay day Thursday 24 January.
Weekly ePayslips will be in effect for Friday 25 January.

All staff apart from the agreed exceptions have been moved to an ePayslip; the agreed exceptions can still use the details in their security envelope to opt in for an ePayslip and we encourage all staff to do this if feasible, for the benefits previously described.

The agreed staff groups excepted from the move to ePayslips are:

1. Catering Services
2. Domestic Services
3. Estates Services
4. General Facilities Services
5. Hotel Services
6. Laundry / Linen Services
7. Portering Services
8. Security Services
9. Transport Services
10. Ventilation Services
11. Staff working at the Glasgow Centre for Population Health
12. Bank only workers (who do not hold a substantive post in GGC)

The ePayslips system has now been extended to cover electronic P60's. A copy of your P60's for the last two financial years are already available on the system, and the current year will be automatically available when ready for those staff who receive ePayslips.

Leading the way in UK on asset management

We are the first NHS body in the UK to achieve accreditation for a new standard of safety and maintenance of our medical equipment.

The Medical Equipment Management Department provides a service across NHSGGC that includes all stages of medical equipment life, from procurement, maintenance and safety checks through to the decommission stage. [Click here to read more.](#)
