Introduction

This issue of Core Brief details information on the Moving Forward Together staff event on 18 February and Mandatory LearnPro modules.

MFT staff event – Monday 18 February

For the last 18 months we've been discussing with staff and the public our Moving Forward Together strategy.

Having approved the strategy last June we have now begun to take forward detailed discussions to consider the case for change within six workstreams, namely:

- Local care
- Unscheduled care
- Planned care
- Mental health services
- Regional services
- Older people's care

The strategy recognises the need to transform our services and change how we use resources to deliver safe and sustainable healthcare. Working together with staff support we can take this opportunity to make transformational change that will benefit patient care and gain the support of our patients and the local communities we serve.

You are invited to join us on Monday 18 February to hear an update on where we are with the strategy and ask you what matters to you as we develop the case for change.

There is a morning session; 11:00 – 12:30 and an afternoon session; 13:00 – 14:30 in the Boardroom, 1st Floor, Commonwealth House, 32 Albion Street, Glasgow G1 1LH
